

I feel privileged to be a teacher at Freedom Academy. I graduated from UVU with a Bachelors degree in Elementary Education, and Argosy University with a Masters of Educational Leadership. I enjoy the 4th grade curriculum, and love to teach children how to acquire this knowledge. I have three children 2 girls, and a boy. We reside in Provo, and love this community.

If I could choose one hero it would be my Father. He grew up a "farm boy" in rural Utah, and went on to become a successful Psychologist, husband, and father of 6 children. He built a standard of impeccable work habits that he lives by even today. He tended to duties, and worked with people all his life. When I saw him talking with other people he would always care and listen to them.

My favorite author and books are Brandon Mull's "Fablehaven series, Madeleine L. Engle's "A Wrinkle in Time", J. K. Rowling's "Harry Potter" series, Louis Sachar's, "Holes", and Gary Paulsen's "Hatchet".

I love to play board games (my favorite is "Settlers of Catan"), and watch movies with my family, I also take them camping, and exploring in nature. I play the Guitar, a little Clarinet, and very little piano. I love music in general.

If I set one grand goal for students this year; I want students to have the knowledge, or "know how" to find information and produce a variety of creative skills with that knowledge. I also want students to enjoy learning.
